Client Awareness: Introduction of SEBI-Verified UPI Handles for Payments

In line with SEBI Circular No. SEBI/HO/DEPA-II/DEPA-II_SRG/P/CIR/2025/86 dated June 11, 2025, Unifi Capital is now enabled to accept payments through SEBI-verified and standardised UPI IDs.

To enhance payment security and transparency, we have obtained a unique, validated UPI ID and corresponding QR Code for fund transfers.

Important Guidelines for Clients:

- Always ensure the UPI Handle contains the "@valid" suffix and displays a **white thumbs-up icon inside a green triangle** before completing any payment.
- Maximum transaction limit: ₹5 lakh per transaction and 24-hour cumulative limit: ₹10 lakh per Client
- Ensure payments are made only from your registered bank account. Transfers from unregistered accounts will be processed only after the said account is registered with us after due validation or funds will be refunded back to your Bank Account.

Enhanced Security through "SEBI Check"

SEBI has introduced a new verification feature called **"**SEBI Check**"** enabling Clients to confirm the authenticity of an intermediary or UPI ID before initiating any transaction. You can:

- Scan a QR code or manually enter a UPI ID to verify its validity.
- Confirm bank account number and IFSC details of intermediaries.

Please refer below for the UPI ID &QR Code and UPI Fund Transfer Details Form.

For any support related to payment methods, please contact Unifi Team.

UNIFI CAPITAL

UPI ID and QR Code

Account No	IFSC	UPI ID	Account Name	QR Code
